
7. Is Evolution True?

In short essays, explain the answers to the following questions.

(Feel free to use the back of the sheet)

1. Explain the deception used to trick people to accept Macro-Evolution as fact, using real examples from science and art?

2. What is the difference between Macro and Micro Evolution?

3. If you know someone who is convinced Macro-Evolution is true, how can you use science to convince them about the design model?
